IT DOES

- Increase average mileage 25%
- Eliminate Carbon Deposits
- Keep Cylinders Clean
- Give additional power
- Make the motor run more smoothly
- Reduce Fuel Expense Materially
- Work equally well on Gasoline and Distillate Engines

IT DOES NOT

- Require any alterations in the engine.
- Contain any acid or other ingredient that can injure any part of the engine.
- Increase danger from fire or explosion.

IT IS GASO-TONIC

We Sell It—We Use It

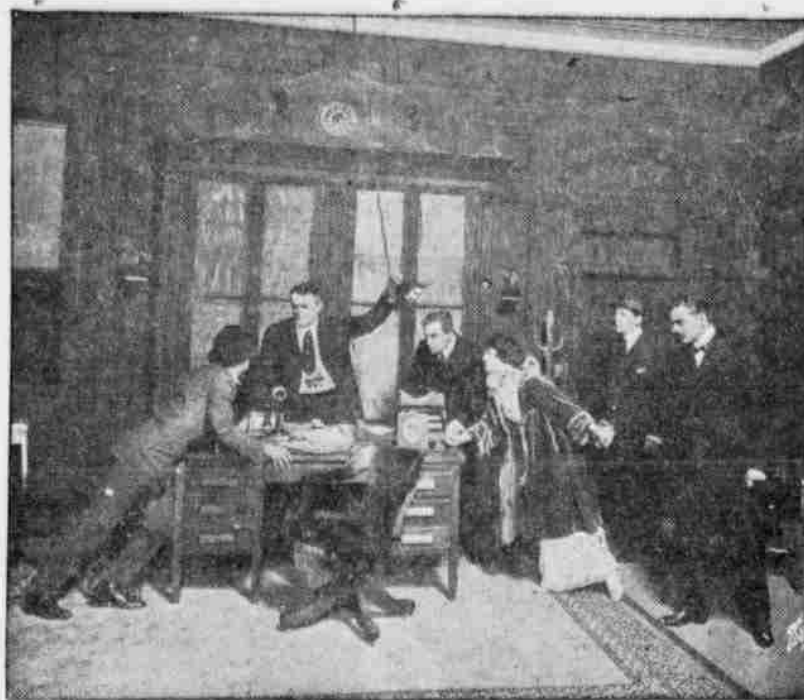

Prepaid Sample for 40 Gallons, 75 cents.

Acetylene Light & Agency Co., Ltd.
HONOLULU

Why shouldn't the Standard Oil Company make the best oil—with over 40 years experience in refining—with unequalled plant equipment? And Zerolene is scientifically refined from selected California crude—**asphalt-base**. Prominent authorities have recently declared that an oil correctly refined from asphalt-base crude can be made not only equal but superior to paraffine-base oils. Next time you empty the crank-case refill with Zerolene. Dealers everywhere and at service stations and agencies of the Standard Oil Company.

AT THE THEATERS

Scenes from "Kick In" by Lytell Vaughan Company

ORPHEUM AND LYCEUM CIRCUIT

Bert Lytell and Evelyn Vaughan and the Alcazar Theatre San Francisco Exposition Company will make their first appearance on Maui at the Kahului Lyceum on Tuesday, June 20, in an elaborate production of Willard Mack's latest New York success, "Kick In", which has a record of an entire year's run at the Republic Theatre in New York and a long run in Chicago.

No greater favorites than Bert Lytell and Evelyn Vaughan have ever appeared in the California metropolis and the roles of Chick Hewes and his wife Molly, respectively, in "Kick In" will afford them unlimited opportunities for their splendid dramatic and comedy talents.

"Kick In" is a most unusual play. It deals with the crook situation from an entirely new standpoint and it is crowded with big dramatic moments, tense vibrating situations, smashing climaxes, chuckling comedy scenes and lines of infinite humor. Exceptional roles are provided in the cast for E. D. Hales, Henry Shumer, Alexis Luce, Phillips Tead, William Amadell, Ernest Van Pelt, Chas. Ealer, Jane Darwell, George Knowlton, Mae Thorne, and Jessie Shouler. The same elaborate stage production including a wealth of detail as was used in the original Alcazar Theatre San Francisco production will be employed in the presentation next Tuesday.

"Under Cover" ran for two years in New York and there is a road company touring the United States at the present time playing it at two dollar

prices. It will be produced in a lavish style at the Wailuku Orpheum on Wednesday night next, by the Lytell-Vaughan Players.

The plot of this big dramatic success tells the story of clever smugglers who operate on the huge trans-Atlantic steamships. It is a detective story in every sense of the word and it is put together with just enough hints to keep the audience in a state of bristling suspense until the very last moment before the fall of the curtain on the last act. In this one scene alone there is a punch and a thrill that sends the shivers up and down the spine and then turns the scene into a complete and happy surprise.

Bert Lytell will have a big role in "Under Cover", one that will keep him on the stage a great deal of the time. That he will interpret it with his characteristic ability and smoothness of style goes without saying. Miss Vaughan will act the role of a society girl who in order to save her sister from disgrace and imprisonment, accepts a secret service job that brings her into an unwilling yet earnest effort to capture the smuggler. Incidentally this charming star will have untold opportunities for some very handsome gowning. Henry Shumer, E. D. Hales, Alexis Luce, Phillips Tead, Ernest Van Pelt, Chas. Ealer, Wm. Amadell, Jane Darwell, George Knowlton, Mae Thorne, and Jessie Shouler will all be fitted with fine roles in this very interesting play.

Seven Keys to Baldpate and The Yellow Ticket, will also be presented.

OUR ISLAND CONTEMPORARIES

KEEP OUT THE CROOKS

There is no sport in the world that awakens a man's sporting instincts more rapidly, or sends a thrill thro the brain and body of a red-blooded individual more quickly than a horse race in which animals of about equal speed, or made so by handicap weights, compete on the level and with only one object in view and that to land first under the wire, or as close to first as is possible. On the other hand crooked horse racing and heaven knows there has been enough of that in Honolulu and Hilo in the past, is about the worst "sport" in the world. Crooked racing breeds criminals who would rob their own mother of her last cent in order to play the races. The winning crooks are a curse to a country, and the losing ones—for they double-cross one another without remorse—are even worse because they have to hang around the place they get stranded in and befoul the atmosphere.

SEARBY SHREDDER ORDERS GOING TO JAPAN

K. Iso, chief engineer of the Nanto sugar factory in Formosa left for Maui last night to visit William Searby, chief engineer of H. C. & S. Company and get pointers from the inventor of the shredder on its operation. The Nanto Sugar Factory Company has purchased a 54 inch Searby shredder from the Honolulu Iron Works Com-

Keohokalole Wins Out Against Dr. Raymond

The Associated Press cable concerning the democratic national convention in St. Louis, brings word that Dr. Raymond's claim to the delegateship from Maui had been turned down. It says:—

"The claims of Dr. H. Raymond of Hawaii, here with a contesting delegation from that Territory have been overruled, and the claims of W. P. Jarrett, who is protesting against the seating of John H. Wilson as national committeeman for the Territory, have been submitted to the new national committee. Wilson, in the meantime, continuing to hold his position, pending the final action on the questions raised by Jarrett. The Raymond protest was settled by a subcommittee composed of National committeemen Taggart of Indiana, Arthur Mullen of Nebraska, and A. Talbot, of Maryland who soon decided it."

pany. It is to be run by an electric motor.

The Honolulu Iron Works has also received inquiries from the Toyo Sento K. K., one of the largest sugar mills in Formosa, for one and perhaps two, Searby shredder of the same dimensions. The only obstacle to the immediate closing of the contract is the difficulty of making delivery, but even though westward bound freights are congested this can undoubtedly be overcome. —Advertiser.

WILL NOT FIGHT THE GERMANS.

Martin Grune, lance corporal of Co. D, 1st N. G. H., is not a German spy at any rate, even if his aloha for the Fatherland means more to him than his duties to the country whose bread he eats. Martin stood in line for promotion to the post of 2nd lieutenant but he feels sure that in the event of war with Germany he could not see himself shouldering a rifle to shoot down fellow Teutons. Grune is not of much use to the country of his naturalization perhaps, but at any rate we must admire his honesty, even if it did lead to his dismissal from the National Guard.—O Luso

If the English and German battle fleets keep at it long enough the United States will soon have the largest navy in the world without it costing congress a cent. —Advertiser.

SUPERVISORS WILL PAY DAMAGES

The board of supervisors last week agreed to assume the amount of damages incidental to the extension of a road across the Kaupakalua gulch in the east Kuiaha homestead district, which is to be built by the loan fund commission. The amount of these damages to several homesteaders is to be fixed by a commission to consist of the chairman of the supervisors, a member of the loan fund commission, and one of the homesteaders.

NEW SCHOOL BUILDINGS TO BE BUILT

The board of supervisors last week ordered plans prepared for the following school buildings: a 2-room teachers' cottage at Lahaina; a 2-room school building at Paia; a 2-room teachers' cottage at Paia; a 2-room school building at Punnahoe; and an addition to the Haiku school. It is expected that tenders for the construction of these buildings will be called for at the July meeting of the board.
